FEES OR FINANCIAL CONTRIBUTIONS FOR THE MANAGEMENT OF PACKAGING AND PACKAGING WASTE OF DOMESTIC, COMMERCIAL AND INDUSTRIAL ORIGIN. (Year 2027)

Dear Sir/Sir,

We are hereby pleased to inform you of the conditions of membership and rates or financial contributions for the year 2027 in order to comply with the obligations arising from *Law 7/2022 of 8 April on waste and contaminated soil*, and *Regulation (EU) 2025/40 of the European Parliament and of the Council, of 19 December 2024, on packaging and packaging waste*.

1. NO MEMBERSHIP FEE

2. FINANCIAL CONTRIBUTIONS

The information report of the data of the declarations of the containers placed on the market to the Ministry for the Ecological Transition and the Demographic Challenge (MITERD), will be made before March 31 of the year following the year to which it refers.

The **PRODUCER** must submit to the SCRAP, in a complete, truthful manner and within a maximum period of February 28 of each year, the information relating to the packaging placed on the market during the immediately preceding financial year, including any data necessary for the proper compliance with the legal obligations of information that are applicable to it.

The obligation to report the information in the packaging declaration will be annual. However, the PRODUCERS adhered to SUN REPACK may choose, at their choice, one of the following declaration methods:

a) **Annual declaration**, based on the actual data of packaging actually placed on the market by the PRODUCER during the corresponding full year.

b) **Quarterly statement**, based on the actual data of packaging placed on the market by the PRODUCER during the immediately preceding calendar quarter within the same financial year.

3. ANNUAL MINIMUM

Likewise, and regardless of the type of declaration, whether simplified or ordinary, for domestic, commercial and industrial packaging, a minimum of €150 per year is established for each category of packaging, in the event that the economic result of the sum in the declaration is less than that amount, and in order to meet the obligations set out in the accession agreement.

Hazardous packaging	Commercial (€/Kg)	Industrial (€/Kg)
Aerosols, tubes and cartridges	1,000	1,000
Hazardous packaging (except aerosols, tubes and cartridges)	0,165	0,165

MODULATION OF THE ECONOMIC CONTRIBUTION

Modulation is made up of a bonus granted by the collective system to the producer when the product meets the efficiency criteria, or a penalty to be paid by the producer to the collective system when the product does not meet these criteria.

All this, taking into account durability, repairability, reuse and recycling, and the presence of hazardous substances, adopting an approach based on the life cycle of the packaging.

SUN REPACK will apply the modulation criteria in accordance with the provisions of the packaging regulations, specifically, *Regulation (EU) 2025/40 of the European Parliament and of the Council, of 19 December 2024, on packaging and packaging waste,* and Royal *Decree 1055/2022, of 27 December, on packaging and packaging waste.*

		Bonuses		Penalties
Fraction	**Material**	**1 attribute**	**2 attributes**	**1 attribute**
Plastics	Rigid plastics (PP, PS, PVC, EPS and other rigid plastics)	T.B. - 3,86 %	T.B. -7,72 %	T.B. + 10 %
	HDPE o PEAD	T.B. - 1,60 %	T.B. - 3,20 %	T.B. + 10 %
	Flexible plastics	T.B. - 2,19 %	T.B. - 4,38 %	T.B. + 10 %
	PET tray	T.B. - 3,30 %	T.B. - 6,60 %	T.B. + 10 %
	PET Non Tray	T.B. - 0,43 %	T.B. - 0,86 %	T.B. + 10 %
Paper and cardboard	Paper and cardboard	-	-	T.B. + 10 %
Glass	Glass	-	-	T.B. + 50 %
